

Organization

General Chair:

Isabel John,
Fraunhofer IESE, Germany
Klaus Schmid,
University of Hildesheim, Germany

Program Chairs:

Eduardo Almeida,
Federal University of Bahia and RiSE, Brazil
Tomoji Kishi,
Waseda University, Japan

Organization Committee:

Industry Track Chair

Christa Schwanninger, *Siemens, Germany*

Hall of Fame Chair

Dirk Muthig, *Lufthansa Systems, Germany*

Workshop Chair

Ina Schaefer, *University Braunschweig, Germany*

Tutorial Chairs

Jaejoon Lee, *Lancaster University, UK*
Yoshikazu Hayashi, *Software Research Associates, Japan*

Doctoral Symposium Chair

Tomi Mannisto, *Aalto University, Finland*

Panel Chair

Danilo Beuche, *Pure Systems, Germany*

Demonstrations and Tool Chair

Juha Savolainen, *Nokia, Finland*

Local Chair

Christian Lescher, *Siemens, Germany*

Publicity Chairs

John D. McGregor, *Clemson University, USA*
Andrea Hufen, *Fraunhofer IESE, Germany*

Industrial Relations Chairs

Sooyong Park, *University of Sogang, South Korea*
Goetz Botterweck, *Lero, Ireland*

Call for Contributions

About the conference:

SPLC, the premier forum where practitioners, researchers, and educators can present and discuss the most recent ideas, innovations, trends, experiences, and concerns in the area of software product lines and software product family engineering, invites you to come to Munich.

We invite a range of topics related to software product line engineering, both traditional and modern. These topics include but are not limited to:

- Industrial experiences in product line engineering
- Techniques and tools for product line engineering
- Evolution and life-cycle issues of product line assets
- Business issues for product lines
- Organizational and process issues for product lines
- Empirical studies in product line engineering

We invite the following classes of original, unpublished contributions:

(1) **Research papers:** (max. 10 pages, 5 for short papers) describe original research contributions (theoretical, conceptual) to the field of software product line engineering. We also call for short research papers, which are intended to report ideas in their early stages. Submission deadline: Feb. 14, 2011.

(2) **Industrial papers:** (max. 10 pages for full, 5 for short papers) describe experience in introducing, implementing, and evolving product lines and success stories or report on problems with the application of product line engineering methods, techniques, and tools in industry. Submission deadline: Feb. 14, 2011.

(3) **Workshops:** The purpose of the workshop program is to provide a forum for bringing together people from industry, academia, and research institutions to present and discuss research results, practices and experiences. Workshops should be organized as full-day events. Submission deadline: Feb. 24, 2011.

(4) **Tutorials:** Tutorials will be held during the conference week in full-day or half-day sessions. A tutorial proposal consists of two pages describing the topic, the plan for conducting the tutorial, and the backgrounds of the presenters and the tutorial. We explicitly invite tutorials that have been held at other events. Submission deadline: Feb. 24, 2011

(5) **Submissions to Hall of Fame:** Each SPLC culminates with a session in which members of the audience nominate systems for induction into the Software Product Line Hall of Fame. Those nominations feed discussions about what constitutes excellence and success in product lines. More information on nominations and election can be found at the conference website or at <http://www.splc.net/fame.html>.

(6) **Demonstrations and Tools:** more information on the website soon

(7) **Doctoral Symposium:** more information on the website soon

Further information regarding the submission processes and submission dates can be found in separate calls at the website <http://www.splc2011.net>. Submission page is <http://www.easychair.org/conferences/?conf=splc11>.

We invite you to be part of SPLC!

Information regarding sponsoring can be found on the website.
